SUMMARY

Information Technology graduate with a strong interest in UI/UX and digital product development, supported by experience in software and web-based application development. I enjoy understanding user needs, translating them into intuitive interfaces, and turning ideas into practical digital solutions. Experienced with Flutter, C++, Python, SQL/MySQL, and data analysis through academic and software projects. A collaborative, adaptable, and curious individual who enjoys solving problems, learning new technologies, and contributing to meaningful user-centered products.

WORK EXPERIENCE

Freelance UI/UX Designer & Front-End Developer

Feb 2025 – Present

Independent | Jakarta & Remote

- Designed user interfaces and interactive prototypes for point-of-sale, tourism, and learning management applications using Figma.
- Translated client requirements into user flows, wireframes, responsive interfaces, and functional application features.
- Coordinated directly with clients, managed project revisions, and delivered designs and digital products according to agreed timelines.

UI/UX Designer

Jul 2025 – Dec 2025

PT. Magercoding Digital Indonesia | Indonesia

- Contributed to the design and development of XpressPOS and EduVibe LMS as part of a collaborative product team.
- Designed user interfaces and user experiences for web and application-based products using Figma and Canva.
- Collaborated with team members to develop and refine digital product designs based on project requirements and user needs.

Barista & Operations Specialist

Nov 2024 – Apr 2025

Utomo House Purwokerto | Purwokerto

- Prepared quality beverages and provided responsive, customer-oriented service in a dynamic retail setting.
- Processed orders and payments accurately using a modern POS system.
- Maintained workspace cleanliness and collaborated with the team to ensure efficient daily operations.

Administrative & Web Assistant

Jan 2021 – Mar 2022

Kantor Imigrasi Kelas I Banjarmasin | Banjarmasin

- Managed immigration data using Excel and optimized formulas for processing and reporting accuracy.
- Developed an informational website for the Class I Immigration Office in Banjarmasin to streamline public access.
- Collaborated with the team to develop digital ideas within the assigned division.

EDUCATION

Bachelor of Informatics Engineering (S1 Teknik Informatika)

2022 – 2026

Telkom University, Purwokerto Campus

- Major in Informatics Engineering.
- Thesis: "Implementation of SVM and Random Forest Models for Web-Based Arabica Coffee Quality Classification."
- Relevant Coursework: Machine Learning, Data Mining, Web Development, and UI/UX Design.

ORGANIZATIONAL EXPERIENCE

Student Executive Board (BEM), Telkom University Purwokerto

Jan 2025 – Dec 2025

Student Advocacy Division Member

- Collected and communicated student feedback and concerns to relevant university stakeholders.
- Participated in student advocacy programs, discussions, and campus-wide initiatives.
- Collaborated with team members to organize programs and support student engagement activities.
